

A GUIDE TO CHOOSING THE RIGHT SHOWER CHAIR

Care & Independence offer a wide range of chairs and cradles.

With options in sizing, wheel fixtures and seat finishes, our bathing solutions provide comfortable and hygienic bathing and toileting needs for those less able.

SEATING TYPES EXPLAINED

TILT-IN-SPACE

These types of chairs can tilt up to 45° making the bathing experience more comfortable for the user and carer alike. Recline in-situ with no need for transfer once in bathroom.

CHAIR

Based on a standard wheelchair design, these chairs have been specifically modified for shower or toileting usage.

CRADLE

The most supportive of the bathing products, cradles are very effective for users with challenging postures.

Further information about specific products can be found in our Bathing brochure or on the individual product pages on our website.
